

Announcement 5/1/2010

We are pleased to announce that Owen Developments Ltd, located in Oxford (UK) has been named Europe and the Middle East's official TiAL warranty/repair center (see below for coverage map).

Owen Developments Ltd will be responsible for the inspection, repair and warranty certification of all TiAL manufactured products in the EU and Middle East. This will allow quicker turnaround times for our EU/Middle East customers, and also save on costly trans-Atlantic shipping.

Owen Developments was chosen for this position because of their top notch customer service, credentials in Motorsport, including but not limited to WRC, F2 and BTCC, their passion/knowledge for forced induction and knowledge on the TiAL product line.

When you send your TiAL unit to Owen Developments Ltd for service, it will be given the same attention as it would if you sent it directly to TiAL.
